"Don't Overlook Tropico, Look It Over"

THE TROPICO SENTINEL

Devoted to Tropico the San Fernando Valley and Southern California

VOL. V | TROPICO CALIFORNIA, WEDNESDAY, APRIL 21, 1915 | No. 15

DO THE PEOPLE OF OUR CITY WANT THE MOVING PICTURE THEATRE CLOSED

(Reprint from April issue American Globe.)

Moving picture theaters have brought untold relaxation, amusement and vivid education of an intensely interesting nature into the lives of thousands of people, as well as circulating millions of dollars. It seems, however, that a few leaders of organizations in Tropico do not agree on this subject, and by the eternal gods are simply going to wipe the olny theater—the Star—out of existence, so it will shine no more to gladden the hearts of the young as wel as old. Whether they will succeed depends upon the patrons.

Tropico joins the city limits of Los Angeles and Glendale, while the Star Movie Theater which has never before been under such a capable and alert up to the minute management, has savedtime in going down town and back, waiting in line down town to see the same pictures shown at the Tropico Star Theater.

Mr. H. C. Eudemiller, the proprietor, has spent as high as $10.00 for the use of a single film. He believes that nothing is too good for his patrons. He furnishes good music as well as seven changes of pictures each week. Change days are every day in the week. Yet there seems to be a competitive element in the Star Movie House, that certain leaders of organizations know no other way to combat than to try to put hem out of business. Whether these leaders are being paid for their work by down town picture houses has not been proven. Moving pictures have been considered such a splendid drawing card that even churches have used them during services, in order to hold the crowd. Some of the grandest and most eloquent sermons on earth have been produced by the movies.

To maintain the modern production service put on at the Star, has cost the management as high as $300.00 a month. To continue this, requires patronage. There are people in Tropico who have never been inside of the Star. One visit would bring them back again. The Star keeps life in Tropico. The management has given away as much as $200 worth of merchandise and cash in prizes to its patrons. The management believes in working with the people of Tropico, which is true co-operation. The management pays its share of the heavy taxes and has the productions that invariably amuse and instruct the patrons. There are accommodations for 350 people during the two shows each night. One starts at 7 p. m., the second show opens at 8:30 p. m. Best seats are usually secured at the second entertainment.

There are people that keep themselves in the limelight by attacking something, if nothing more than the "Movies." The majority of people in Tropico do not want the Star closed and are not likely to permit a few disgruntled leaders to accomplish this by any kind of tactics.

Visit the movies at the Star Theater at least once a week, and this will act as a tonic for the grouch, depressed mentality and other complicated troubles. Show the manager that you are with the Star. Discourage this wave of opposition to the movies that might spread throughout suburban localities of Los Angeles.

Do the people of Tropico want their moving picture theater closed? Reply by coming to the Star every week.

Mrs. W. A. Chapman entertained the General Richard Gridley Chapter, Daughters of the American Revolution, at her home on El Bonito avenue, last Wednesday afternoon. Mrs. Wayland Brown gave two readings, Mrs. William Herman West sang a solo and Mrs. E. S. Ayres a gave violin solo.

BOARD OF TRUSTEES MEET IN REGULAR WEEKLY SESSION

All members present. After the reading of minutes of previous meeting the regular order of business was taken up.

A communication from the county council, calling attention to the "motor vehicle act" that supercedes all acts of 1913 and orders all fines received in cities from speeders to be paid into the county treasury was referred to the city attorney.

A list of prices for ballot paper from the Secretary of State was ordered filed.

The city clerk informed the board that he had secured a grant deed from Liza B. Normart, James B. Normart and P. L. Ferry for lot A in Normart tract. He was instructed to record same.

A statement from the State Compensation Insurance Fund, calling attention to premiums due. The amount was ordered paid.

The city clerk stated that the reports of the water and gas company were incorrect. The report was ordered filed and the clerk stated that the matter would be looked into farther.

The clerk was instructed to thank Miss Cora Hickman and the Glendale News for publishing the quarterly reports.

Street superintendent was instructed to post danger signs on Hill street.

An ordinance, naming Green street and Hill street, was offered read and re-read for second time.

An ordinance, vacating a certain alley, was offered, read and re-read for second time.

City engineer reported that Mrs. Larson had informed him that the deed for Adams street was on deposit at the German-American bank.

City clerk was instructed to change specifications of improvement on Palmer avenue, showing sidewalks to be five feet instead of four feet.

Resolution of award of contract for work on Palmer avenue was ordered adopted.

Bills reported avorably by finance committee were ordered paid.

The following bills were reported favorably and ordered paid:

Valley Press	$29.00
Leigh Bancroft	10.00
C. E. Nicholson	15.00
Pacific Telephone Co.	2.50
John A. Logan	2.50
U. S. Fidelity Co.	5.00

A demand from Taylor Bros., for additional cost of installing furnaces was referred to C. C. Rittenhouse.

W. A. Chapman asked for a permit to hold a auto race similar to the Christmas races on Admission Day, September 9. The matter was held over.

Clerk instructed to ask P. E. Railway to remove weeds and other obstruction on right of way.

City attorney was instructed to take necessary steps to open Brand boulevard at the Southern Pacific tracks.

Mrs. Van Wagner, who, with her family, recently moved into the Rich home on West Cypress street, has been quite ill for several days.

SPECIAL NOTICE FOR THOSE INTERESTED IN THE TROPICO BOY SCOUTS

A meeting will be held next Monday, April 25, to complete a Scout Council, Troop Committee and Honor Committee to represent the Tropico Boy Scouts of America. The meeting will be in charge of Scoutmaster Ludden at his residence, corner Gardena and El Bonita. The meeting will begin at 7:30 p. m. It is hoped that all the men who have been asked to be on the Scout Council will be present at this meeting. Also any other men who are interested in the scout movement. Mr. H. D. Cross or Mr. A. R. Hewitt will talk on the Scout Council and how to form it.

PUBLIC UTILITIES COMMITTEE OF CHAMBER OF COMMERCE ADVOCATES BRAND BRIDGE

Last Friday evening committees from various sections of the San Fernando valley met at the city hall, in response to an invitation from the Chamber of Commerce, to devise means of action to bring about an improvement that, if successful, will mean thousands of dollars to not only Tropico, Glendale, Burbank and San Fernando, but to Los Angeles, particularly Edendale and the Atwater section, viz., the building of a bridge across the Los Angeles river at Ivanhoe, the opening up of a direct road through the cut at Ivanhoe and improving Brand boulevard from the Southern Pacific tracks to the river. Thus opening up a direct route to the heart of Los Angeles. This proposed route will lessen the distance some two miles and open up a roadway to Griffith Park.

The meeting was called to order by Dr. William C. Mabry, chairman of the Public Utilities and Service Committee of the Chamber of Commerce. Dr. Mabry appointed A. J. Van Wie secretary, and upon motion A. E. Boyce was chosen chairman of the meeting.

Stephen F. Veselich gave an outline of what had been done previously, and after some discussion from those assembled it was decided that a committee composed of one man from every section to be benefited, be appointed and that they secure financial aid in order to employ engineers to make a survey and give an approximate cost of the work in order that something tangible be presented to work upon.

The matter has been on the boards for some time. Property owners in the vicinity of Glassel Park and in the east side of Edandale have also presented a case to the council of Los Angeles to build a roadway, bridge and viaduct as an extension of Allesandro street in Edandale through the Glen Eden section, over the river near the Hunter estate and over the Southern Pacific tracks at Glassel Park. The two situations were canvassed by the Public Works Committee of the Los Angeles Council and the majority favored the Allesandro extension. A petition was circulated, but as yet has not been turned in to the council. Engineers report the cost to be $64,500 and 55 per cent of frontage is necessary in which to warrant the council to start the work.

One of the stumbling blocks in the Allesandro district is the fact that part of the proposed improvement means the cutting away of the cement abutments along the right of way of the Pacific Electric railway at its northern terminal of the local Edandale cars. This the company positively refuses to do without lawsuits.

Property owners in the Brand boulevard section have also been approached with a petition, but owing to the fact that the Allesandro petition is still out, the exact assessment district is unknown and the petition is held up.

Some of the members of the council, the Los Angeles Chamber of Commerce and the Northeast Improvement Association are in favor of the Brand boulevard bridge.

The Los Angeles council have stated that they would be willing to appropriate a percent of the cost of such improvement provided that the other municipalities and property owners make up the rest. It was suggested and the committee appointed last Friday evening were instructed to look up the possibility of a joint assessment district, including all territory to be benefited; bonds to be voted and paid off through the general tax medium. This would facilitate matters, providing the city of Los Angeles paid one-third of the cost, the Board of Supervisors one-third, and the assessment district the other third; and bring the cost down to a very small amount for every one concerned.

The Los Angeles Council, in favoring the Allesandro street project, do so understanding that they are serving more Los Angeles people than they would on Brand boulevard. Would they?

Thousands of autos came from all sections of the San Fernando Valley through Glendale and Tropico on their way to Los Angeles to trade. These auto parties must either go by way of Hollywood or Glassel Park. A long way around. The Allesandro bridge would not materially lessen the distance. Brand boulevard would! Thus is Los Angeles served by San Fernando Valley.

The Allesandro project would not materially help Pasadena. They have a more direct route to Los Angeles. Eagle Rock (an incorporated city) and Glassel Park would be the only ones to receive a direct benefit. The Brand boulevard project would open the way to at least 50,000 people.

The flood control board will in all probability formulate some plan whereby the Los Angeles River water can be held in a permanent channel. This fould lessen the distance at Ivanhoe, over which a bridge would be necessary. At the crossing of the Allesandro project it would call for a bridge as well as a viaduct over the Southern Pacific tracks.

The Tropico Board of Trustees are working with the officials of the Southern Pacific Railway, with a view to lower the tracks at the Brand boulevard crossing. Property owners in Atwater tract, the east side of the Pacific Electric right of way, are anxious to improve their roadway to the river. The Richardson estate, owners on the west side will do their share. The expense of opening up the road through the Edendale-Ivanhoe section will be borne by them. The bridge will serve Los Angeles' interests at this point than at the Allesandro point.

By opening up the roadway through Ivanhoe, Los Angeles has a direct route to Griffith Park.

San Fernando Valley will benefit through the medium of increased population. Increased population means increased tax returns. More money means more improvements and more improvements means more people, etc., etc.

The committee appointed last Friday evening was instructed to ask the aid of every citizen of their community and every citizen should be ready when called upon to lend their assistance to this project that means so much.

THE value of persistency in advertising as told by John Wanamaker is concrete advice and should be read by every business man. He says:

"If there is one enterprise that a quitter should leave severely alone, it is advertising one must be prepared to stick like a barnacle on a ship's bottom. He should know before he begins that he must spend money. Somebody must tell him that he cannot hope to reap results commensurate with his expenditure early in the game."

"Advertising does not jerk----it pulls. It begins very gently at first, but the pull is steady. It increases day by day and year by year until it exerts an irresistable power."

Advertising is like driving a nail. You can't drive it home with tap of the hammer, but by one tap after another it is finally driven as far as it will go and then it holds. Abvertise, and keep at it.

CASA VERDUGO REFUSES FOR THE THIRD TIME TO BE ANNEXED

After three unsuccessful attempts on the part of Glendale to annex Casa Verdugo, the citizens' committee of Casa Verdugo send the following request to the merchants and business men of Glendale:

To the Merchants and Business Men of Glendale:

For the third time within a few years, Casa Verdugo has decisively defeated an attempt to annex her to Glendale.

There is not now, and never has been, any real desire among the residents of Casa Verduga to become a part of Glendale. A careful investigation of the different annexation campaigns shows that politicians of the City of Glendale have been the leading spirits in trying to create such a sentiment. To accomplish this object before this last election they made many trips at night to residents of the district, and by holding out promises impossible to fulfill have succeeded in stirring up some trouble in the district.

In the election just past, as in all previous annexation elections, prominent men and politicians of Glendale spent the greater part of the day in Casa Verdugo, suing their automobiles and working for annexation. The people of Casa Verdugo strongly resent any interference in their business on the part of the citizens of Glendale, her politicians or her officials.

The people of Casa Verdugo wish to live at peace with their neighbors and with the people of Glendale, but the constant and continual annoyance of having politicians of a neighboring city visit us with the object of starting factional fights can have but one result.

Glendale merchants receive from residents of Casa Verdugo every month many thousands of dollars in payment for goods purchased of them. Can you merchants afford to have these tactics continued? Can you afford to have ill feeling constantly aroused against you among the people of Casa Verdugo?

The politicians of Glendale are rapidly bringing about a condition that cannot fail to result in a great loss of business to the merchants of Glendale. The citizens of Casa Verdugo feel that it is up to the merchants and business men of Glendale to control their politicians.

Citizens' Committee.

Mrs. Glenn Craig and little daughter returned to their home at Saugus this week, after a visit at the home of Mr. and Mrs. W. A. Hough.

DR. KATE WALLER BARRETT ADDRESSES A LARGE NUMBER OF WOMEN

A large and exceedingly appreciative audience of ladies from the various women's clubs of the city gathered at the G. A. R. Hall last Thursday afternoon as guests of the Thursday Afternoon Club to listen to a program that included a brief talk by Mrs. Frank Wolfe on the "National Marketing Commission," and an address by Mrs. Dr. Kate Waller Barrett, national president of the Florence Crittendon Homes, and also representative to the San Francisco Exposition on the immigration committee appointed by President Wilson, on her experiences in the work of properly caring for girls who go astray.

Mrs. Barrett stated that her efforts won greater reward in caring for a bad woman who wished to live a better life than working among those who scorned the hapless creatures. She spoke in terms of praise in the way the San Francisco authorities were able to cope with the sex problems during the Exposition. This is the first fair since 1876 that such conditions have been met with.

Mrs. Barrett spoke so fervently and so earnestly to those present that her sentiments will linger a long time in their minds, and the committee who secured her through the efforts of Mrs. Frank Stoddard, president of the Los Angeles home, feel that the end justified the means.

The efforts of the National Marketing Commission in the United States, which is the outcome of work started in Germany by Professor Lupin, is the bill to come before the next session of the legislature, and does away with the middleman, was discussed and explained also.

Mrs. John Virgil Sweetzer, a singer of note, gave a vocal number that was also appreciated.

After the program and previous to the luncheon which was served by the committee in the banquet room, a reception was tendered Mrs. Barrett, with the following ladies in the receiving line: Mrs. Chas. A. Barker, Miss Cora Hickman, Mrs. W. H. Bullis, Mrs. H. H. Davenport, Mrs. D. H. Smeer, Mrs. J. H. Smith, Mrs. E. M. Lynch, Mrs. Mary McLean and Mrs. Leigh Bancroft.

A MEETING WORTHY OF A LARGE ATTENDANCE

The literary section of the Thursday Afternoon club will give a Shakespeare Tea, Friday afternoon, April 23, at 2:30, in the K. P. hall, to celebrate the birthday of William Shakespeare. Through the cooperation of Mr. F. E. Busser, of the Santa Fe Reading Room System, the section has secured Professor S. H. Clark, head of the department of public speaking of Chicago University, who will deliver an address on "Shakespeare and the Human Heart," which will be illustrated by pictures taken from Shakespeare plays.

Professor Clark is the author of several books and a director of the New York Chautauqua, of Chautauqua Lake, the father of all Chautauquas. He has traveled extensiively and always in demand in the large cities of the East. As a lecturer and reader, Prof. Clark is conceded to be the greatest scholar in the United States.

Mr. Busser will introduce Prof. Clark. Mrs. A.Eyraud, a prominent teacher of the violin, will play and Mrs. Fry wil give a piano solo.

No one can afford to miss this opportunity to hear Prof. Clark. No admission will be charged. A cordial invitation is extended to everybody.

Tea and cake will be served after the program at which time a small charge will be made. Proceeds to go to the club building fund.

THE BRIDGE OF SIGHS

By William C. Anderson

While the idea of a bridge over the Los Angeles River at Ivanhoe isn't entirely without merit, the proposition of bonding the valley cities for the purpose of building it, is not a business-like movement. Nor is the idea of constructing the bridge above the present railway bridge an economical one. Nor, is the movement to appropriate several hundred dollars for surveying the place one that will meet with the approval of the citizens of Tropico.

When the citizens and taxpayers of one city are asked to finance a work that is purely speculative and carries no assurance that the work will result in any gain to the taxpayers, it is absurd.

If the people of Tropico and Glendale voted bonds to the extent of two-thirds of the cost of the structure and the bridge built above the railway trestle it would only act as a protection for the railway bridge in time of floods and the valley cities would have to bear their share of repair bills.

Under the plan suggested by a few who own real estate in the immediate vicinity of the bridge, the taxpayers would have to stand the expense of improvements for another city. It is asking too much of the people of the valley to finance a bridge for Los Angeles.

Some day Los Angeles will it necessary to bridge the Los Angeles river at Ivanhoe, and until that time Tropico can use her three roads to the city.

The cost of the proposed bridge is another item that seems exorbitant—$64,000. Tropico's share would be about $21,000, and she needs other things that would benefit her more than a bridge built for the purpose of enhancing real estate values for a few who refused to "speak up" when the popular subscription was mentioned.

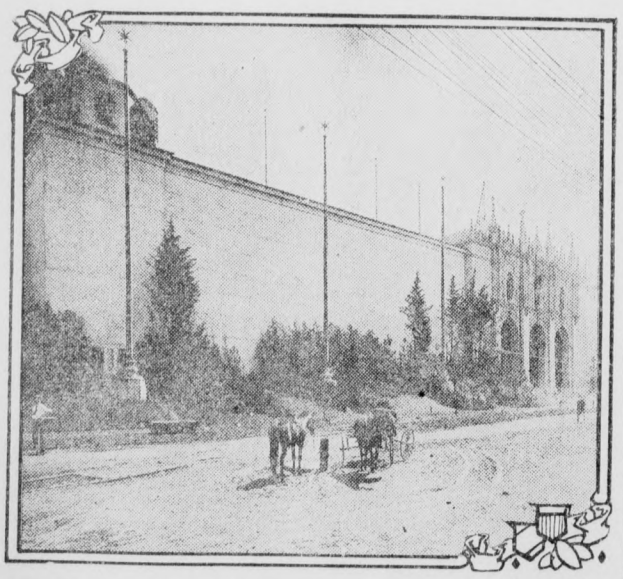
Tropico business men are now suffering because of a prohibitory tax levied against them—in the restraint of trade—by the city of Glendale; if the bridge went in at Ivanhoe the business men would suffer for the reason that it would be used principally by peddlers and other concerns who use autos and wagon to compete with local industries.

It would develop into a "Bridge of Sighs" for the business man; a burden of expense to the citizens, and an everlasting outlet for those who would drain Tropico of her resources.

So far as traffic conveniences are concerned, the bridge is particularly interesting to auto owners and not at all to those who have to use electric cars.

A covered bridge for lovers and sweethearts would be more desirable; it would make a trysting place and romantic things would have a setting. Bridges should only be built for those who like to look in rivers and dream, and for switch engines; not for the purpose of levying a tax upon a great many for the benefit of a very few.

World's Greatest Agricultural Display to Be Made in Vast Palace of Agriculture at Panama-Pacific Exposition, San Francisco, 1915



THE accompanying photograph was taken of the Palace of Agriculture before the Esplanade was given the asphalt pavement which it now has. This facade of the Palace of Agriculture looks out upon the Marina and the waters of San Francisco bay.

The outside height of this building is ninety-six feet. It is 579 by 639 feet and was erected at a cost of $425,610. The opening at the left opens on the Court of the Universe, which is to be one of the architectural wonders of the entire Exposition.

The portals shown at the right are beautifully wrought and rich in color. The central niche is occupied by a sculptured figure of the Conquistadera. On either side of this in slightly lower niches are figures of the Pirate, which stand eleven feet high.

The wall surface is of imitation Travertine and present a pinkish ocher tint. At the eaves other tones are used, and the dome shown here is of orange, while the base of the dome bears a blending of pinks, copper green and blue.

This palace is directly opposite the yacht harbor, which is to be the scene of thrilling events in 1915.

THE WRITER WANTS TO KNOW, "WHY A LICENSE TAX?"

Our City Attorney was instructed by our Honorable Board of Trustees to prepare an Ordinance where all businesses should pay a license into our city treasury. And why said tax? "Quoth the raven evermore". Some have said to keep even with Glendale. Doubtless the assumption if it is a good thing for Glendale will be equally good for Tropico.

Since war times we have incured license tax upon luxuries, public utilities and monopolies, but why and when the advantage, necessity or reason for taxing all merchants for carrying on all lines of business for the common welfare? One of the officials of another city has said, "at the request of some" and of course for revenue also (note not for revenue only) Do not all merchants pay taxes Yea and even proportionally more than any other class of property aside from being the first and repeated solicitation of every worthy as well as unworthy cause within the town. Another conjecture, the city needs the money for public improvements. More improvements would be mighty nice even at the added expense and hardship on the merchant. So the clamorous echo to the merchant, why a license tax? like wise to, the merchant reverbrates, why a store? If a license Mr. Citizen, Taxpayer or Trustee, are you willing to return value received for such added tax on your merchant? How much money are you spending in your own town? Buy anything in Tropico? No? Dont keep my brand. Can do better in the city, and get trading stamps too. Law sakes man you might do better over in Germany or Austria, 16 men die there every second. Again, why a store?

Funny town without a store, Yes or back woods either, such a place has long since passed into the ancient archives of antiquity. Ever try to sell house or lot or pig or poke? What is the first inquiry of an interested buyer? Any store or business there? Yet I dare say that if some of you would conscientiously answer from experience the answer would be, well I guess so, there are some stores and buildings right close here close on the corner, pass them frequently, but you kinda got the habit of buying at the the big white front and it seems so nice to watch the penny papers for the daily and hourly specials, what bargains they do put on [judging from the crowds that their schemes attract] Let me tell you the week before Easter [we all buy hats before Easter] I got mine, and its a Pip $9.98 a real Panama too, guess it came from Pasabarnido cause it had M and L in it, you know Miller and Lusk are the biggest men up there. Mrs. Jones our wash woman said she bought one for $1.05 from the Auction house which buy up bankrupt stock. She says that's the place for bargains. But say Hawkes do you think it's any fun or saving to buy 15 pounds sugar after which a 7 mile ride and a 15 block walk, when half a dozen reputable concerns will deliver 14 pounds just as good or better right into your larder, yes and some of them even cash your checks, bring your stamps or deliver your parcel post. Why I even know a delivery-man to carry in the wood and start the fire when the wife was taken sick, alone with the babes, and so the inquiry why a license tax. Yea why a store? Of the latter no store, no town, Quoth the raven ever more, no patronage, no store. Want your town to build, improve? Write your check for business in Tropico. Don't let your money go abroad. Promulgate home industry. Cast your bread upon the waters. Think it won't be gathered many days hence? If you expect the embryo chick to mature into a feathered fowl do you crush it in the shell? Then why a license tax?

Gasoline and naphtha are the easiest cleansing agents to use on fabrics of all kinds. But they should never be kept in the house in large quantities, as they are extremely dangerous. It is safer not to keep any amount of them in the house. It is often possible, if you live in the country, to keep a large corked bottle of gasoline in some sheltered place out of doors. If you live in the city the nearest drug store must be relied on to supply your want in small quantities.

Powdered French chalk should be used to remove grease spots from all sorts of surfaces—wall paper, clothes and carpets. It is not always successful in one application, but should be brushed off and replenished until the spot has disappeared.

Price Paring!

We don't claim to sell meat cheaper than any one else in America. We do claim to sell good meat as cheaply as it can be sold and still leave us a small profit

We're not in business for our health. Neither are you. We're in business to make an honest living. We are willing to take a small profit on a large number of sales.

Our customers are the satisfied kind because they get good meat, first class service and pay the minimum price.

Mrs. Geo. Tauxe has been ill at her home, 411 N. Brand Blvd., for several days.

Mr. and Mrs. C. R. Carmack were guests of friends in Alhambra Sunday.

Mrs. Geo. Clark of Los Angeles was a guest at the home of Mrs. Chas. Retts this week.

H. G. Hosford and W. W. Hamilton were trout fishing in the Bear Lake region last week.

The regular all-day meeting of the N. P. Banks Post and W. R. C. will be held at the G. A. R. Hall Friday.

Chas. M. Retts has purchased a lot on Park Ave. of Frank Ashton and will erect a home there shortly.

City Treasurer S. E. Brown and Ray Gallup have completed their work in Tropico and Glendale as assessors.

Little Luella Ashton, daughter of Mr. and Mrs. J. W. Ashton, will celebrate her 6th birthday on Friday. She has invited her neighborhood friends to assist her over this milestone.

E. J. Morgan left Tuesday for his ranch near El Centro to put things in readiness for his family. When ready the family will make this their future home.

Mrs. Ralph Haskins and two children, who have been the guests of Mr. and Mrs. Chauncy Lake for several days, returned to their home at Santa Ana last Tuesday.

Mrs. E. V. Coleman returned last Saturday from an auto trip with friends to San Diego. Mrs. Coleman says that the inland trip is far superior to the coast route in regard to good roads.

Sam Rich is working on the organization of a ball team for Tropico fans the coming season. The first game of the season will be a pick-up game and will be held at the new Magnolia school playgrounds Saturday afternoon, May 1.

Among the guests at the meeting of the Richard Gridley Chapter of D. A. R., held at the home of Mrs. W. A. Chapman, last Wednesday, was Mrs. T. J. Hankla of Los Angeles.

In our last issue we stated that J. J. Burke would attend the San Francisco Exposition as a member of the Foresters' band. Mr. Burke is a member of the Knights Templar band instead, and it was in that capacity he took in the fair.

A number of friends and acquaintances took dinner last Monday with Mr. and Mrs. George N. Lunn, at their home, 223 N. Glendale avenue, in honor of the 81st birthday of Mr. Lunn. Several out of town guests were among those present.

Anyone wishing to donate anything for the cafeteria dinner, to be held May 1 at the Magnolia avenue school, for the benefit of the public playgrounds, are requested to notify Mrs. C. Lake of the Magnolia Avenue Parent-Teachers' Association, or Mrs. Mary Chadwick of the Tropico School Association.

If you had been on the streets last Monday morning about 11 o'clock you would have imagined that the European war seat had been moved to Tropico, or at least the San Fernando Valley somewhere. What really was, was a crowd of movie actors and props. on their way to enact some war scenes. The outfit consisted of armored autos and officers in the uniforms of Eastern armies.

Some person or persons with a distorted mind, with a thought to gain sympathy for one and malign another, distributed typewritten circulars around through the business district last Saturday. The papers were distributed when no one was about, and were unsigned, so whosever time was spent in the undertaking failed utterly to gain the point desired. The one from whom said paper was intended to come is so well known as one whose principles are far above such actions that sympathy, if that's what was intended, fell on deaf ears.

Chapter "L," P. E. O., met at the home of Mrs. Anna Randolph, 865 Glendale avenue, last Wednesday. A delightful luncheon was served, after which a very interesting program was listened to by those assembled. Mrs. J. G. Hunchberger gave a talk on P. E. O. Ideals; Miss Mather rendered two piano solos, Mrs. W. H. Bullis read a letter from Mrs. Dr. E. F. Tholen on a trip to England; Mrs. Dr. W. C. Mabry read a paper on "London at the Beginning of the War." The next regular meeting will be dispensed with in order that members may attend the state convention to be held at Alhambra on April 28.

CIVIC COMMITTEES DEVISE MEANS FOR A PUBLIC PLAYGROUND

The proceeds from the sale of pencils last Saturday, "Pencil Day," instituted by the civic committees of the various clubs of the city, will be used in the beautifying of the grounds in the rear of the Magnolia avenue school and the installing of proper paraphernalia to make a public playground for the children of Tropico.

The ground belongs to the school board, but the members have graciously donated it for this cause, and for lack of funds they have asked the citizens to contribute a share of the expense.

Everybody is asked to donate as much time or money as possible to put the grounds in shape.

Besides the "pencil day" on May 1st, there will be served a cafeteria supper at the school building, at which time every family will be asked to donate something to eat and also urged to attend in order that the amount necessary can be secured. All afternoon and evening there will be something doing, and it is hoped that the grounds can be planned immediately after.

Already the seats and wiring from the ball grounds across the tracks have been moved over, and hereafter all ball games will be held on the new grounds. The merchants of the city have come forward and offered their support toward the making of a team worth while, and the coming baseball season is expected to make a fan of every good citizen of Tropico. The expense of a ball game is borne by voluntary contributions at each game instead of admissions. Last year the boys ran short, but this year they should be encouraged.

THURSDAY AFTERNCON CLUB NOTES

The Thursday meeting of the Thursday Afternoon Club will be a business meeting, and will be held at the home of Mrs. A. H. Gaarder, 323 N. Glendale Ave. Miss Gladys Carruthers of the Cumnock School will read from Marion Craig Wentworth's book, "War Brides," which is so popular now. The committee in charge is Mrs. A. H. Gaarder, Mrs. Dr. Jessie Russell, Mrs. Mary Ayres, Mrs. Frank Peters and Mrs. A. Stone.

The nominating committee will present a list of officers to the club for the ensuing year at the business meeting, and same will appear in the next issue.

GRADUATION CLASS OF GRAMMAR SCHOOL AT STAR THEATRE

Members of the graduating class of the Tropico Grammar school will have charge of the Star theater, Tuesday, May 4.

The students are preparing an excellent program to be used in connection with specially ordered films and everybody who attends will be assured a good time. Each member of the class will endeavor to outdo each other in an effort to sell the largest number of tickets. The regular admission price, 10c, will be charged, and the proceeds will go toward the expenses of the class.

To augment the fund, home-made candies will be offered for sale during the performances.

150 BOY SCOUTS IN A FIELD DAY EVENT

Last Saturday was a day long to be remembered by the Boy Scouts in Southern California. Over 150 Boy Scouts were present, while at least 12 troops were represented in the meet. Griffith Park seemed an ideal place for this affair. The scouts did splendid work in their first aid practice, signaling, imaginary fire-fighting and other things. The meet was in charge of A. R. Hewitt. Mr. H. D. Cross, the National Field Scout Commissioner of the Western Coast, gave a short talk on the scout movement. The scouts made their own suppers. Some broiled wienies and steak, while other fried their meat, baked spuds and made cocoa. The meet was entirely successful and it showed that a great many of the scouts had lived up to their motto, "Be Prepared."

Oh, yes, Tropico was represented.

RODEO TO BE GREATEST WILD WEST SPECTACLE EVER STAGED

Cowboys and cowgirls, whose daring dashes across the screens of the "movie" theaters have thrilled thousands, will be seen in the flesh at the 1915 Rodeo and La Fiesta de las Flores, to be held in Los Angeles, May 1 to May 9 inclusive.

As Los Angeles is the greatest moving picture producing center in the country, hundreds of film favorites are already on hand to participate in the many events at the gigantic Stadium, where the days of old Southwest will be reproduced. The cowboys who have formed the posses that trailed western picture villains to justice and the cowgirls who have rescued their film sweethearts from the hands of painted Indians are already practicing for their participation in the Rodeo contests.

The beautiful floral and electrical parades, which will be the features of the Fiesta celebration, will offer pleasing contrasts to the thrills of the Rodeo. The electrical floats are practically completed and will surpass anything ever before seen in the West. The floral parade of May 3 will show a profusion of the blossoms that have caused the Southland to be called the garden spot of the world.

Tom Mix, the Selig cowboy star, who is a great favorite with admirers of Western pictures, and Art Accord, popular Universal cowpuncher, have already signed articles of entry in the Rodeo contests, where they will do even more thrilling stunts than they have for the films. Many other members, both men and women of the local picture camps, have also signified their intention of participating.

NOTICE OF AWARD OF CONTRACT

Pursuant to Statute and to the Resolution of Award of the Board of Trustees of the City of Tropico, California, adopted the 20th day of April, 1915, directing this notice, notice is hereby given that the said Board of Trustees in open session on the 6th day of April, 1915, opened examined and publicly declared all sealed proposals or bids offered for the following work, to-wit:

FIRST: That Palmer Avenue, from the Easterly line of Central Avenue to the Westerly line of Brand Boulevard, be graded and macadamized in accordance with plans, profile and special specifications for the improvement of a portion of Palmer Avenue in said City of Tropico, which special specifications were adopted by Resolution No. 196 of the Board of Trustees of said city.

SECOND: That a cement curb be constructed along each line of the roadway of Palmer Avenue from the Easterly line of Central Avenue to the Westerly line of Brand Boulevard. All curbs shall be constructed in accordance with plan No. 59, cross-section No. 58, Profile No. 58, and in further accordance with special specifications for the improvement of a portion of Palmer Avenue, in the City of Tropico, which said special specifications were duly adopted for said work by Resolution No. 196 of the Board of Trustees of said City.

THIRD: That a cement sidewalk five feet in width be constructed along both side lines of Palmer Avenue from the Easterly line of Central Avenue to the Westerly line of Brand Boulevard, in accordance with plan No. 59, cross-section No. 58, profile No. 58, and in further accordance with special specifications for the improvement of Palmer Avenue in the City of Tropico, which said special specifications were duly adopted for said work by Resolution No. 196 of the Board of Trustees of said city.

SECTION 2. All plans and profiles referred to in this resolution are on file in the office of the City Engineer of said city; all special specifications referred to in this resolution are on file in the office of the City Clerk of said city; said plans, profiles and special specifications are hereby referred to for a more particular description of said work and made a part hereof.

SECTION 3. The Board of Trustees of the City of Tropico determines that serial bonds shall be issued to represent assessments of twenty-five dollars ($25.00) or over for the cost of said work of improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

And thereafter, to-wit: On the said 6th day of April, 1915, said Board of Trustees awarded the Contract for said work to the lowest regular responsible bidder, to-wit: Peter L. Ferry, at the price named for said work in his proposal on file, to-wit:

Macadamizing, 5 cents per square foot; grading, 60 cents per lineal foot; curbing, 26 cents per lineal foot; sidewalk, 9 cents per square foot.

And that said Award has been approved by the President of the Board of Trustees of the City of Tropico.

City Clerk's Office, City of Tropico, California, April 20, 1915.

NELSON C. BURCH,
City Clerk and Ex-Officio Clerk of the Board of Trustees of the City of Tropico.

NOTICE TO CREDITORS

RATE INCREASE NECESSARY

FARMERS' UNION OFFICIALS THINK RAILROADS ARE ENTITLED TO MORE REVENUE.

Products of Plow and Farmer Who Lives at Home Should Be Exempt From Increase.

By Peter Radford.
Lecturer National Farmers' Union.

The recent action of the Interstate Commerce Commission in granting an increase in freight rates in the eastern classification of territory; the application of the roads to state and interstate commissions for an increase in rates, and the utterances of President Wilson on the subject bring the farmers of this nation face to face with the problem of an increase in freight rates. It is the policy of the Farmers' Union to meet the issues affecting the welfare of the farmers squarely and we will do so in this instance.

The transportation facilities of the United States are inadequate to effectively meet the demands of commerce and particularly in the South and West additional railway mileage is needed to accommodate the movement of farm products. If in the wisdom of our Railroad Commissions an increase in freight rates is necessary to bring about an improvement in our transportation service, and an extension of our mileage, then an increase should be granted, and the farmer is willing to share such proportion of the increase as justly belongs to him, but we have some suggestions to make as to the manner in which this increase shall be levied.

Rates Follow Lines of Least Resistance.

The freight rates of the nation have been built up along lines of least resistance. The merchant, the manufacturer, the miner, the miller, the lumberman and the cattleman have had their traffic bureaus thoroughly organized and in many instances they have pursued the railroad without mercy and with the power of organized tonnage they have hammered the life out of the rates and with unrestrained greed they have eaten the vitals out of our transportation system and since we have had railroad commissions, these interests, with skill and cunning, are represented at every hearing in which their business is involved.

The farmer is seldom represented at rate hearings, as his organizations have never had the finances to employ counsel to develop his side of the case and, as a result, the products of the plow bear an unequal burden of the freight expense. A glance at the freight tariffs abundantly proves this assertion. Cotton, the leading agricultural product of the South, already bears the highest freight rate of any necessary commodity in commerce, and the rate on agricultural products as a whole is out of proportion with that of the products of the factory and the mine.

We offer no schedule of rates, but hope the commission will be able to give the railroad such an increase in rates as is necessary without levying a further toll upon the products of the plow. The instance seems to present an opportunity to the Railroad Commissions to equalize the rates as between agricultural and other classes of freight without disturbing the rates on staple farm products.

What Is a Fair Rate?

We do not know what constitutes a basis for rate making and have never heard of anyone who did claim to know much about it, but if the prosperity of the farm is a factor to be considered and the railroad commission concludes that an increase in rates is necessary, we would prefer that it come to us through articles of consumption on their journey from the factory to the farm. We would, for example, prefer that the rate on hogs remain as at present and the rate on meat bear the increase, for any farmer can then avoid the burden by raising his own meat, and a farmer who will not try to raise his own meat ought to be penalized. We think the rate on coal and brick can much better bear an increase than the rate on cotton and flour. We would prefer that the rate on plows remain the same, and machinery, pianos and such articles as the poorer farmer cannot hope to possess bear the burden of increase.

The increase in rates should be so arranged that the farmer who lives at home will bear no part of the burden, but let the farmer who boards in other states and countries and who feeds his stock in foreign lands, pay the price of his folly.
